

A horizontal band of images featuring three globes of the Earth on the left and a close-up of a human eye on the right. The globes are rendered in shades of blue and white, with some digital or network-like patterns overlaid. The eye is looking directly at the viewer, with its iris and pupil clearly visible. The overall color palette is dominated by blues and whites.

COMPANY PROFILE

COMPANY OVERVIEW

Netrix Business Systems Ltd

Netrix Business Systems Ltd is an ICT firm based in Nairobi, Kenya. The company was established in 2008 and registered as a limited company in 2010.

Our core business is design and development of web based financial computer systems, mobile solutions and general software solutions.

We also offer other services such as Cloud hosting and Services, Website design-development and hosting, System integration services, Emerging Technologies and Consultancy.

COMPANY ENVIRONMENT

We are a professionally managed software development company servicing clients all over East Africa.

QUALITY POLICY

Netrix Business Systems Ltd is dedicated to provide products and services that are of the highest possible standards; to satisfy our customers' expectations of quality, reliability and service.

Total Customer satisfaction being our Quality Policy, we work hard to integrate a sound management team to ensure efficiency and effectiveness as guided by our documented quality standards.

VISION

To be dynamic, inclusive and competitive in providing business solutions in the world

MISSION

To provide world best business solutions that meet market needs within the region and beyond

VALUES

Netrix Business Systems endeavors to maintain the highest possible standards of:

- Integrity
- Fairness
- Honesty.

Our Corporate philosophy being;

- Creating a nurturing environment to enable individual and organizational growth
- Maintain a work culture that is fair, open and ethical
- Provide high quality services that can measure reasonably in a cost benefit analysis

COMPANY PRODUCTS (BUSINESS MODEL)

Anchor ERP

Anchor ERP System is a software product of Netrix Business Systems Ltd. It is a web based ERP system designed to capture software needs of a company holistically. It's a one stop shop for automation needs for the target industries.

Anchor ERP has been developed, tested and commissioned by the best in the industry to accommodate among other areas; Finance, Manufacturing, Sales, Procurement, Inventory, Human Resource, Assets, Project Management and other ad hoc business processes that culminate into the core functioning of an ERP System.

Anchor ERP is backed up by a team of professionals in various disciplines such as Finance, Computing and domain experts. This has allowed continued improvements on areas of needs as well as keeping up with the changes in technology.

At Netrix Business Systems Ltd, we have an exemplary implementation and support team that ensure timely delivery, commissioning and support of the system all round the clock.

Anchor ERP has been a successful deployment in various industries such as Manufacturing, Financial Institutions, Cooperatives, Government Departments, Retail and Service Industries. Its versatile design and nature has enabled the product to gain popularity with the market. This in return has given the product the diversity of options to better itself by adapting best and emerging practices while adhering to the statutory and industry laid tenets.

By keeping the customer involved in the development and customization of Anchor ERP, it allows the customer to understand and reconcile their software needs with the output at every stage of development.

At Netrix, we make you feel not just a part of the action but also leading from the front.

SOME OF OUR WINS

Netrix Business Systems Ltd

We thank all our clients for giving us the opportunity to create cutting-edge design and development solutions for their business and entrepreneurship ventures. Our aim is to provide premium quality solutions within the preferred budget and time frame, to best serve our client's needs, varied as they may be.
